

## IMPORTANT INFORMATION

# A fire ban is in force

The ground is extremely dry. One tiny spark can start a grass fire or forest fire that could be difficult to put out. You are therefore not permitted to light a fire or barbecue directly on the ground. It would be extremely inappropriate to use disposable barbecue grills in or close to a forest or open land. You are only allowed to barbecue using permanent grills and garden grills (this also applies to bathing areas).

Read more about the fire ban at [www.rsbg.se](http://www.rsbg.se)

If you would like to know whether the fire ban is still in force, call 031-335 29 80.
