<p>5.</p>	<p>Historical and current development of the old town</p> <p>The historical town of Freiburg was largely destroyed in the World War II. Due to careful reconstruction and the establishment of a pedestrian zone, the heart of Freiburg is today an attractive and vibrant centre. Current projects, such as a new tramway line and the extension of the pedestrian zone set up the course for the future.</p> <ul style="list-style-type: none"> ▪ Oberlinden: Visit to the medieval city centre ▪ Konviktstraße: Refurbishment of the old town during the 1970s ▪ Organization and enlargement of the pedestrian area ▪ Tram network in Freiburg since 1901 ▪ Parking management 	<p>10:30 – 12:00</p>	
<p>6.</p>	<p>Lunch</p>	<p>12:00 – 13:30</p>	
<p>7.</p>	<p>New residential area with integrated shopping mall</p> <p>Connected to the tramway and integrated into a district with high population density, a shopping center with 14,000 m² was built on a former exhibition site.</p> <p>It is complemented by a residential development with 200 residential units and a green area. A CHP plant supplies the shopping center and residential buildings with heat and electricity. Green roofs and rain water use ensure sustainable water management. The area is a good example of an internal development with mixed uses that contributes to a city of short distances.</p>	<p>13:30 – 15:00</p>	
<p>8.</p>	<p>Conversion of former freight train area</p> <p>Initially planned as a business park with a focus on High-Tech and Science, the former freight train station will now be developed into a mixed area with industry, science, office, housing, leisure and culture.</p> <p>Some projects are already completed and in the next years it is planned a total investment of about 700 million Euro.</p>	<p>15:00 – 17:00</p>	

	<i>Tour with the responsible town planner – depending on availability</i>		
9.	Dinner	19:30	
3rd Day – 27th of September 2016			
10.	<p>Rieselfeld: From sewage field to model district</p> <p>With 10,000 to 12,000 inhabitants, Rieselfeld is Freiburg’s biggest new district.</p> <p>It is a very good example of sustainable development, and it has the following features:</p> <ul style="list-style-type: none"> ▪ A Tramway since the creation of the district ▪ Low-energy housing ▪ Citizen involvement ▪ Traffic and energy conception ▪ Social work ▪ Culture ▪ Playgrounds ▪ Protected natural areas ▪ Rainwater management ▪ Ecumenical churches 	9:00 – 10:30	 
11.	Coffee break with a sweet snack	10:30 – 11:00	
12.	<p>Vauban: The model district</p> <p>Vauban is a former military barracks that was built in 1938. In the 1990s, it was converted into a new urban district with a very special quality of life. Learn how this district has become an internationally famous example of sustainable residential development:</p> <ul style="list-style-type: none"> ▪ Mobility ▪ Renewable energies ▪ Green corridors ▪ Citizen participation ▪ Passive and low energy houses ▪ Joined housing development <p>In 2010, the Vauban city district was presented at the EXPO in Shanghai as an example for sustainable city planning.</p>	11:00 – 12:30	 

<p>13.</p>	<p>The solar housing estate</p> <p>Visit of the Sonnenschiff: Discover the world's first-ever-service center in a highly efficient energy-saving building constructed by solar architect Rolf Disch. It holds two supermarkets, a bakery, numerous offices, and the renowned Eco Institute. State of the art technologies like triple glass panes, vacuum panels, heat recovery systems, and phase change material (PCM) have all been installed.</p> <p>Energie Plus® houses The future belongs to low, passive Plus-Energy Houses®. Day by day they save energy and reduce the burden of rising fossil fuel prices for the inhabitants. Living in a Plus-Energy house with a solar power installation on the roof is a good way to plan for the future. It feeds energy into the public electricity network which consequently brings in additional money.</p>	<p>12:30 – 13:00</p>	
<p>14.</p>	<p>Lunch</p>	<p>13:00 – 14:30</p>	
<p>15.</p>	<p>Transfer to the airport</p>	<p>14:30</p>	

Pos	Services	Costs in €
1.	Date: 26 th and 27 th of September 2016	
2.	Meeting point: your hotel

Studieresa Freiburg 25 till 27 september 2016

Deltagare: **Styrelse**
Ledningsgrupp

Tidsschema

Söndag 25 september

Avresa Landvetter	14.30
Ankomst Frankfurt	16.45
Transfer till Freiburg, ankomst	ca 19.30
Incheckning, middag	

Måndag 26 september

Program bifogat	9.00 – 17.00
Middag	19.30

Tisdag 27 september

Program bifogat	9.00 – 14.30
Transfer Frankfurt	14.30
Avresa Frankfurt	21.35
Ankomst Landvetter	23.10

Eventuellt kan vissa deltagare ta alternativa fligther för att minska bemanningsrisken

Program

Preliminärt program är bilagt. Då programmet inte är fastslaget finns möjligheter att påverka innehållet om någon av deltagarna önskar besöka något ställe utöver de föreslagna eller få presentation av ett särskilt projekt.

Kostnad

Det föreslagna upplägget innehållande presentationer, besök och föreläsningar samt hotell, transfer och måltider kostar ca 5.500 kronor per deltagare beräknat på 15 deltagare. Till detta kommer flygresor Göteborg – Frankfurt vilket beräknas kosta något mindre än 3000 kronor per deltagare.

Kostnaden kan minskas något genom att välja ett billigare hotellalternativ.

Om deltagarna ska delas på 2 olika flygresor kan kostnaden öka något beroende på alternativ och dyrare transfer.
