Attendance and absences in the same app

Our app makes it easy for you as guardian to notify your child's preschool about absences and time off via your mobile phone. The same app allows you to submit your child's attendance schedule – quickly and securely.

Attendance - absences

We want to make everyday life simpler, and we believe that every little detail in life counts. That's why we've developed a way for you to manage your child's preschool attendance digitally.

IST Home Skola makes it easier to manage attendance and means less paperwork for guardians and staff. Which in turn means more time spent with the children.

Benefits and functions

» Quick overview of timetables.

Schedules and attendance

» Specify schedules with just a few clicks.

» Copy schedules between children.

» See the current schedule.

Absences and time off

» Notify the school about absences and time off at any hour.

» See current or previous absence notifications.

Download the IST Home Skola app

You need an iPhone or an Android phone to use the IST Home Skola app. The app can be downloaded from the App Store or Google Play.

# How to use the app

Start the app

The first time you use the app you have to identify yourself using BankID via SkolID.

Just follow the directions on your screen.

Overview

From here you choose if you want to make an absence notification or submit schedules.

Absence and time off

This screen view shows you current and previous notifications.

To make a new notification, tap *Anmäl*.

Send notification

Specify which child the notification is for and choose a date. The default is for a full day, but you can choose part-day instead.

Tap *Skicka* and confirm your identity.

Schedules

This screen view shows you current and previously submitted schedules.

To submit a new schedule, tap *Anmäl vistelsetider*.

Send schedule

Specify which child the schedule is for, choose a starting date and specify times.

Tap the plus sign (+) to create multi-week schedule.

Tap Skicka and confirm your identity.

If you have any questions, ask the staff at your child's preschool.

SkolID and BankID

What is SkolID?

SkolID is an easy-to-use, secure login service for managing all school matters. Your integrity is protected and your identity is confirmed in the same way regardless of operating system, manufacturer or device type.

SkolID is ordered by the personnel at your child's pre-school.

What is BankID?

BankID is an electronic ID document that you use to digitally prove your identity, log in, and sign contracts or approve transactions on the websites of various authorities, banks and other companies.
