

New in Sweden?

Welcome to the school unit for newly arrived students.

The school unit will be your and your child`s first meeting with the Swedish school. You are welcome here with your child who is between 6 and 15 years and who has recently come to Sweden.

On the school unit, we check your child`s knowledge. The result forms the basis for adapting the education to your child`s needs.

We also offer you, who are newly arrived custodians, information about the Swedish school and society.

We will help you with this:

A screening of your child`s knowledge.

Introduction to the Swedish school.

To choose the school.

This is how the reception goes

You are welcome to us directly when you have come to Sweden.

During our first meeting we`ll ask questions about your child`s school background, your child`s interests and what expectations you have at school. We also inform you how to make a school choice for your child.

After this your child is welcome to us for the screening. It will be combined with a school introduction and will take about two weeks.

When the screening is complete, we review the results with you and pass it on to your child`s new school.
