Statistik skolplaceringar 2020

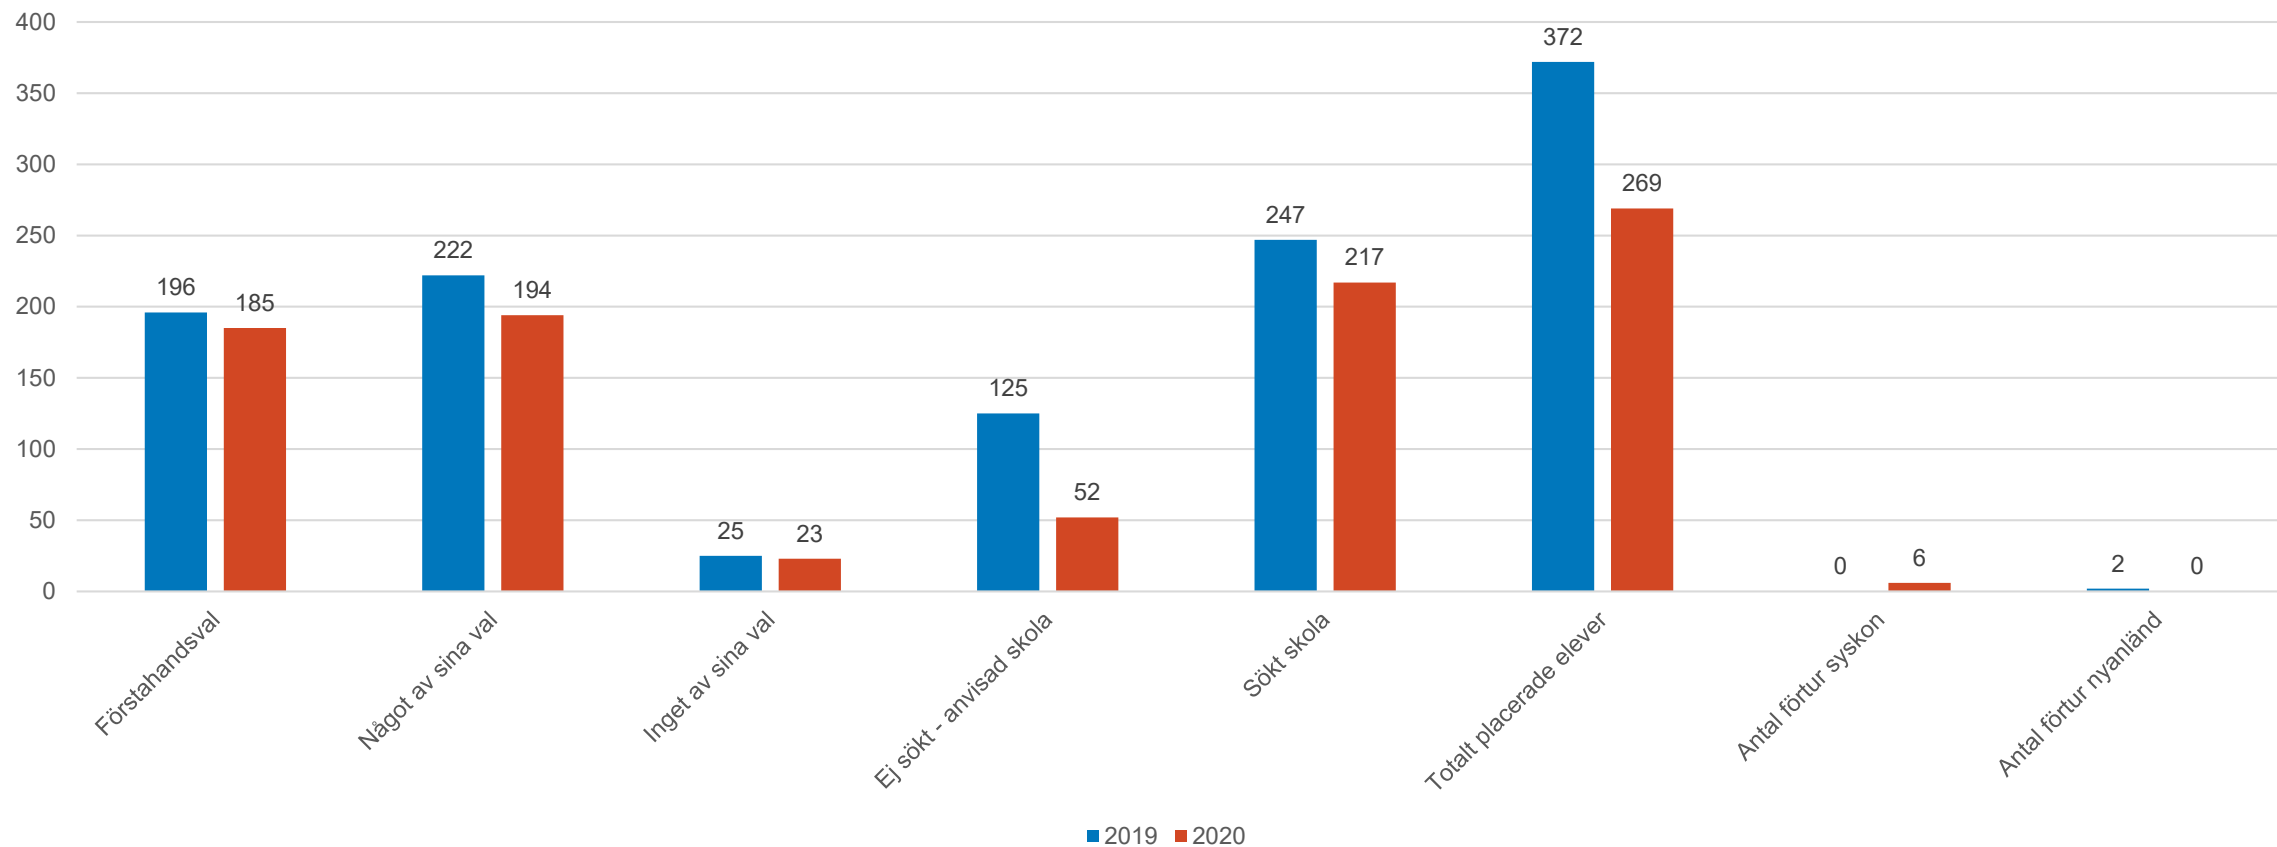

Årskurs 6

2020-10-22

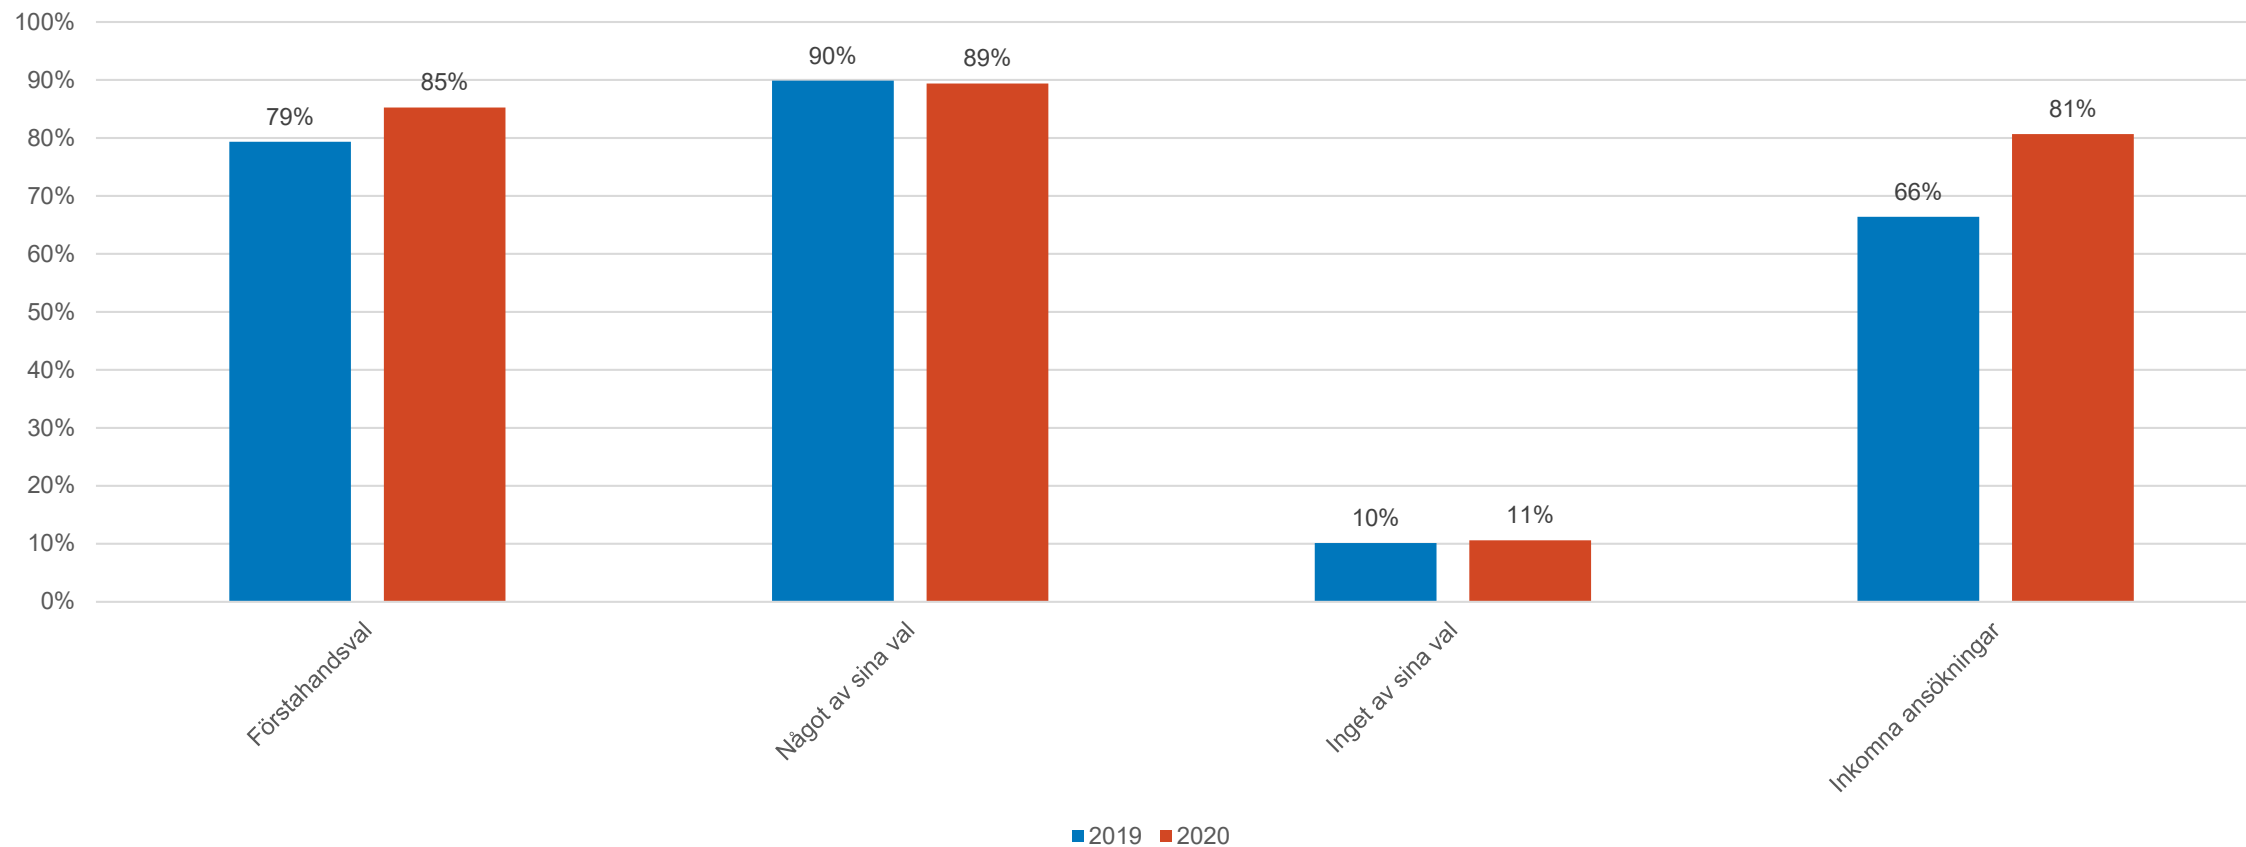

Sammanfattning

- Andel som sökt skola har ökat från 66 % till 81 % mellan 2019 och 2020
En orsak till detta är fler och större kommunikationsinsatser.
- Andel som fick sitt förstahandsval har ökat från 79 % till 85 % mellan 2019 och 2020
- Antalet placerade elever har minskat med ungefär 100 elever.
En orsak är att skolenheter som tidigare var F-5 gjordes om till F-6 och därmed behövde inte eleverna byta skolenhet.
