

**Dear Hvitfeldtare,**

Welcome to Hvitfeldtska Gymnasiet! After nine years of hard work you have succeeded in getting submitted to the largest and the best school in Gothenburg, and we feel honored to follow you along this new chapter of your life. A chapter that will bring you much joy, friendships and fellowship. A chapter where you will get to know yourself and develop. Congratulations for choosing Hvitfeldtska, because you have made the right choice.

Hvitfeldtska is the largest and the oldest school in Gothenburg. Centuries of tradition and knowledge are housed inside the walls of Hvitfeldtska. Thousands of students have wandered the halls which will now become a part of your everyday life. I know what you are feeling right now, and how nervous you can feel when you don't know what High School will be like. But dear Hvitfeldtare, you have nothing to worry about. You have a bumpy road ahead of you, but you will love the ride. You will, among two thousand other Hvitfeldtare, be a part of an experience only we can offer, which will make your time in High School unforgettable.

The diversity of students, programs and activities is something that we are proud of. This diversity might appear a bit frightening at first. But, dear Hvitfeldtare, it is this diversity that is the most fantastic thing about Hvitfeldtska. This diversity creates fellowship, solidarity and makes you feel at home. Thanks to our club activities you will have an opportunity to find people with the same interests as you. Do you like to bake, play chess or maybe act? Don't be afraid to try something new, and most importantly, don't be afraid to be yourself.

Unfortunately High School is more than happiness and partying. Some days will feel difficult, stressful and endless. Sometimes you will feel like no one understands you. At those days, I would like you to remember us, the student union. We will always be here for you, you can simply stop by our union room and talk. We will listen. Your time in High School is special, so my tip for you is to enjoy it, and have fun along the way! Three years might seem like a long time, but before you know it you will stand on your graduation day, ready to run out side by side with your friends.

Dear Hvitfeldtare, you have the world at your fingertips. In three years you will be a disciplined, stress-tolerant and open minded person with friendships for life. The journey that you begin does not end here, this is only the beginning. Whatever your future may hold, remember us when you one day change the world.

See you in the corridors!

**Kindest regards,**

**The Student Union Board through  
Irma Tursunović - Vice President**
