

## Unikum will replace Hjärntorget

From the start of the autumn term, week 32 and onwards, our preschools will start using Unikum instead of Hjärntorget. In Unikum, you can easily follow and take part of your child's everyday activities and development. There you can also find important information from your preschool.

### Log into Unikum

As a guardian, you will have access to Unikum from week 32. Download the app 'Unikum Familj' on App Store or Google Play or enter via [unikum.net](http://unikum.net). You log in with your BankID.

### Hjärntorget will close down on 30 June

On 30 June, Hjärntorget will close down, and guardians will no longer be able to log in. Hjärntorget may contain pictures or documentation of your child. If there is anything you wish to save, you must do so before 30 June. [Here you can read more about how to save pictures and documentation from Hjärntorget.](#) You can also find instructions at [goteborg.se/forskola](http://goteborg.se/forskola) under the Hjärntorget tab.

All documents on Hjärntorget are official documents and are saved in a digital archive in accordance with the Archives Act.

### Why do we replace Hjärntorget?

Unikum is adapted to the activities and needs of preschools. It is more user-friendly for guardians and staff, and it provides better means of communication, follow-up and participation.

### Do you have any questions?

You will receive more information about Unikum from your child's preschool. You can also read more at [goteborg.se/forskola](http://goteborg.se/forskola).

If you have further questions, please contact the preschool staff.
