Börja förskoleklass Engelska

## Starting school

Children must begin school when they are six years of age. School begins in August. During the first year the child is in the preschool class.

All children who begin in the preschool class have the right to go to a school that is no more than two kilometres from their home. If there are several schools within two kilometres, your child has the right to go to one of the four schools that are closest to home.

We cannot say which school your child will go to. This depends, for example, on how many children want to go to the same school and where those children live.

You can say which school you would prefer your child to go to. You can request any schools you want.

Requesting a school does not mean for certain that your child will go to that school.

**You can make your school request during the period 15 January - 15 February.**

Please remember that if your child has two parents or guardians, they both need to approve the application. Otherwise, it will not be valid.

You can read more and request a school by going to [www.goteborg.se/onskaskola](http://www.goteborg.se/onskaskola).
