

Insurance Statement | Personal Accident Insurance

For children and teenagers in Gothenburg | 2017-07-01 – 2018-06-30

The municipality has purchased personal accident insurance for students, children, teenagers and other groups within the boundaries comprising the metropolitan area of Gothenburg. This statement outlines the scope and limitations of the insurance policy.

A Personal Accident is an involuntary physical injury to the insured, suffered through a sudden external event (impact to the body). Personal accident does not cover illness.

Guidelines when injured

- Seek immediate help or assistance from a doctor or dentist
- Make sure to keep all receipts
- Any transport by taxi to and from school premises must be approved and authorized with a certificate signed by a doctor. The certificate should also state under which period taxi has been approved by the doctor. Protector must be informed of the transportation by taxi upon being approved. The taxi certificate and claim can be sent to Protector by email or through our homepage. Upon Protector's approval, the taxi may be ordered.
- In case of injury, claims must be sent to Protector without delay. The right to compensation will be canceled if the claim has not been made within one (1) year after the policyholder became aware of the circumstances justifying it.

Whom the Insurance covers	When the insurance is valid
Children aged 0-17 years old <ul style="list-style-type: none"> - Children registered as citizens of Gothenburg. - Children from other municipalities covered by municipal or private childcare. - Children attending public or private schools in Gothenburg. - Asylum children or children without identity/nationality documentation in Gothenburg. Part time / School hours

The insurance is valid during ordinary school hours, during lectures or equivalent, as well as transportation to and from school premises. Furthermore the insurance policy covers other activities organized by schools such as PRAO, APU, and other activities related to the curriculum. Even when a student is present on school grounds in relation to his or her education the insurance policy is valid: leisure activities, sports, outings, field trips, and any other activities organized or approved by the school's principal or equivalent.

Full time School hours, leisure, and vacations.

Medical Expenses

The insurance covers necessary costs related to medical care, medicine, treatment, and other products aiding recovery. Costs may not arise any later than up to 5 years after the injury took place. Hospital treatment will also be reimbursed. The costs are only covered for care that is also reimbursed by general insurance or equivalently financed by public funds.

Transportation costs

The insurance covers travel costs in connection with care and treatment. Compensation is also provided for special transportation needs so that the injured party may participate in school activities – this is only valid if authorized and confirmed by a doctor. Costs may not arise any later than up to 5 years after the injury took place. Travel expenses are reimbursed with up to the maximum amount of deductibles as outlined in the National Insurance Act and must be approved in advance by Protector.

Dental costs

The insurance covers necessary costs for treatment of teeth, and/or tooth prosthesis the oral cavity.

Costs may not arise any later than up to 5 years after the injury took place.

The costs have to be approved by Protector before treatment. If final treatment is delayed, protector will still cover the patient on the grounds of being under 25 years of age.

Damages to clothing, spectacles, hearing aids etc.

Should a personal accident cause the injured party to seek medical treatment by a doctor, full compensation is provided for any damaged clothing, spectacles, hearing aids etc.

Additional Costs

If the accident requires medical treatment, the injured party will be compensated with necessary and unavoidable additional costs as a result of the injury during the critical recovery period.

Medical Rehabilitation

Compensation is provided for costs associated with rehabilitation in regards to examination, treatment and care.

Technical assistance/aid

If the injury is expected to lead to a permanent disability, compensation will be provided for technical assistance/aid.

Disability Compensation Compensation may be paid for medical or occupational disability. Final evaluation must be undertaken when the injury has healed and the doctor determines the physical condition to be stable.

Death

If the insured dies due to accidental injury within 3 years of the accident or during the policy period regardless of cause, compensation is paid for funeral.

Extend the cover to protect your children

Children are the dearest thing we have. Despite this our cars and homes are often better insured than our children. We offer you to supplement City of Gothenburg's personal accident insurance with insurance that also covers disability caused by illness.³

Illness is the leading cause of disability

The insurance cover protecting your child through the City of Gothenburg is only valid for physical accidents. The most common cause of disablement for children is illness. This may involve, for example metabolic diseases or diseases of the sense organs.

Insurance sum

The base amount by invalidity is 10 base amounts². The highest amount of compensation is 20 base amounts.

Disability is calculated as follows

- The degree of medical disability under 50 percent
 - Compensation is calculated Based on the sum insured
- The degree of medical disability 50 percent and above
 - Compensation are calculated based on the sum insured x2
- At 50 percent permanent disability compensation is payable at 50 percent of the sum insured.
- At 75 percent permanent disability compensation is payable at 75 percent of the sum insured.
- If the disability is 100 percent permanent, compensation is accordingly payable at 100 percent of the sum insured.

Price

The price of this insurance is SEK 351 annually.

Other benefits included

- Medical and travel expenses in case of sickness
- Hospitalization and emergency aid compensation
- Rehabilitation and utilities
- Contribution of costs
- Death benefits

Declaration of health

When you apply for health insurance, we do a medical risk assessment. Illnesses that your child already carries as well as specified illnesses will not be covered by the insurance. In most cases the child will be covered by health insurance, however, present illnesses will be excluded from the cover. Because of this we need to know as much as possible about your child's medical condition. When you fill in the health declaration form we can properly assess what type of insurance cover we can offer you.

¹ The price is subject to an insurance that is covered between 2017-07-01 and 2018-06-30

² The base amount is 44 800 SEK 2017

³ The insurance can be bought until the insured reaches the age of 18
