An amount equal to the net proceeds of the issue of the Notes will be credited to a special budget account that will support the Issuer's lending for Eligible Projects (as defined below). So long as the Notes are outstanding and the special account has a positive balance, at the end of every fiscal quarter, funds will be deducted from the special account and added to the Issuer's lending pool in an amount equal to all disbursements from that pool made during such quarter in respect of Eligible Projects.

ELIGIBLE PROJECTS

"Eligible Projects" means a selected pool of projects funded, in whole or in part, by the Issuer that promote the transition to low-carbon and climate resilient growth as determined by the Issuer. Eligible Projects may include projects that target i) mitigation of climate change, including investments in low-carbon and clean technologies, such as energy efficiency and renewable energy programs and projects ('Mitigation Projects'), ii) adaptation to climate change, including investments in climate-resilient growth ('Adaptation Projects'), or iii) to a smaller extend (maximum 20% of the net proceeds) projects which are related to a sustainable environment

rather than directly climate related.

Examples of Eligible Projects may include:

- renewable energy (solar, wind, wave and hydro);
- energy efficiency;
- waste management;
- water management (efficiency);
- biofuel (from forestry waste);
- smart grids;
- sustainable housing (e.g. infrastructure and construction);
- K2020 public transport development program (excluding aviation);
- environmental (maximum 20% of the net proceeds);
- development of new nature conservation areas; and
- water clearing facilities

SELECTION OF ELIGIBLE PROJECTS

The Eligible Projects are selected in cooperation between the Issuer's environmental department and the treasury department and finally approved by the city council.

TRANSPARENCY

To enable investors to follow the development and provide insight to prioritised areas the Issuer will provide an annual letter to investors including i) a list of projects financed, ii) a selection of project examples, and iii) a summary of the Issuer's green bond development. Such letter may be made available on the Issuer's website.
